Design Context, Process, and Systems

WORK EXPERIENCE

└ **UX Co-op** | July - December 2017
edX, Cambridge, MA

Designed prototypes and mockups for web pages to be put into production on edX website with millions of learners.

Conducted user research and usability testing to determine problems and validate potential solutions.

Contributed to conversation regarding product vision and direction, specifically on the Enterprise team.

Collaborated with a Scrum team to make decisions regarding bi-weekly team goals and to eliminate any UX blockers.

Resident Assistant | September 2016 - Present
Northeastern University, Boston, MA

Mentor and maintain relationships with first-year students.

Oversee resident safety in a building with 324 residents.

Develop, advertise, and host creative programs for residents.

Summer Camp Counselor | Summer 2012 - 2016
Town of Nottingham Recreation Department, Nottingham, NH

Assisted and encouraged campers aged 5 - 12 years to participate in camp activities.

Planned and organized camp activities for each day.

SKILLS

Coding

Java *Proficient*
Javascript/React/React Native *Proficient*
HTML/CSS *Working knowledge*
Bootstrap CSS Framework *Working knowledge*

Tools

Jira *Proficient*
Git & Github *Proficient*
Spring Boot *Proficient*
Maven *Working knowledge*
Jenkins *Working knowledge*

Other

UX Design & Research *Proficient*
Agile Process *Proficient*
Web Accessibility *Basic knowledge*

ACTIVITIES

└ **Studio Designer/Developer** | January 2018 - Present
Scout, Northeastern University, Boston, MA

Work in a joint designer/developer role on a team of five to create the Knightly personal safety mobile and desktop platform.

Develop mobile app front-end using React Native and prioritizing usability.

General Council Member | January 2016 - December 2017
Resident Student Association, Northeastern University, Boston, MA

Design t-shirts and advertisements for organization's programs, including a successful Guinness World Record attempt with 394 participants.

Townhall | October 2017
HackHarvard, Harvard University, Cambridge, MA

Utilized the Django framework to develop the front-end of a community web-application over a 24-hour period.

Design Chair | July - November 2016
Husky Hunt Committee, Northeastern University, Boston, MA

Created all design elements, including apparel, logo, and advertising for a 24-hour scavenger hunt reaching more than 2000 participants.
